

REMARKS

Claims 1-28 are pending in the application. Claims 14, 15, 22, and 24 have been amended to make minor changes and corrections. Claims 26-28 have been added by this amendment. Support for claims 26-28 appears, for example, in paragraph 0035 of the specification.

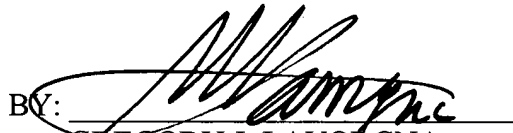

The specification has been revised to correct a typographical error, so that the words "control subject 304" have been amended to read "experimental subject 304." The reference numeral 304 correctly referred to an experimental subject, as shown in the drawings.

An abstract, substantially identical to the abstract in the international application, has been inserted into the specification.

No new matter has been added by this amendment. Entry of the amendment and an early action on the merits is requested.

Respectfully submitted,

DANIEL JONATHAN ROSEN, *et al.*
